

Allowing the banks to contact us at home by phone would be a travesty, not to mention an intrusion on our privacy! Even if we did do business with a bank at one time, if we are not doing business with them at the current time, then we do NOT want to be contacted by them again! I make it a policy to NEVER do business with any company that contacts me by phone and the same goes for charities that call me at home - no donations from me unless they mail me something - NO CALLS!! As far as I am concerned the best thing the State of Indiana has ever done is to lead the nation in establishing DO NOT CALL lists. Major cudos to Indiana Attorney General Steve Carter. PLEASE do not let this banking association get their way - it won't bring them any business anyway, at least not from me!
